

Thermax Temperature Sensor Indicator Strips

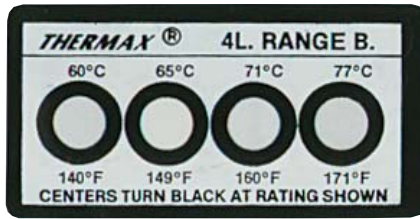

Irreversible Color Change Indicators

The 21080T series is an eight-level strip, going from 99°F to 500°F, in five ranges. Good for laboratory testing and for most general industrial applications, including storage.

The 21083T series is a large four level strip available in ten ranges. Useful for thermal bonding of plastics, exothermic reactions, and storage of temperature sensitive chemicals, bearings, motors, and other sensitive parts.

Reversible Color Change Indicators

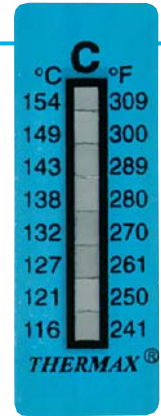

The 21086T uses liquid crystals and has reversible temperature indication. This allows evaluation of both increases and decreases in temperature without having to replace the strip.

Hanna Thermometers

- -50 to 150°C or 58 to 302°F
- 0.5°C/1°F Accuracy
- Pocket-Sized
- 3000 Hour Battery Life

Each Unit Includes: One 1.5V alkaline battery (L1154) and instructions.

Ordering Information

Extech Hygro-Thermometer Calendar/Clock

- Portable Unit Ideal for Desktop or Benchtop
- °C or °F Switchable
- Displays Numeric Week, Day, Month, and Monthly Calendar
- Temperature: 14 to 140°F (-10 to 60°C) Humidity: 20 to 90%
- Accuracy of ±1°C, ±5% RH
- Alarm Clock with Snooze
- Dimensions 3.4 x 3.5 x 1"; Weight: 5 oz
- Complete with Built-In Stand and Two LR44 Batteries

Extech Big Digit Hygro-Thermometer

1" Digits on Super Large (3.1 x 2.4") LCD

- Displays % Relative Humidity and Temperature °C/°F Simultaneously
- MIN/MAX Memory of Both % RH and °C/°F with Reset
- Temperature: 14 to 140°F (-10 to 60°C) Humidity: 10% to 99%
- Accurate to 5% RH, 1.8°F (1°C)
- Dimensions: 4.3 x 3.9 x 0.78"
- Complete with Built-In Tilt Stand, Wall Mounting Bracket, and Battery
